

About the Book

This is illustrated Textbook of Medicinal Chemistry III is a much-awaited masterpiece in its arena, targeted mainly to B. Pharm. VI Sem. students, it aims at eliminating the inadequacies in teaching and learning of medicinal chemistry by providing enormous information on all the topics in medicinal chemistry of synthetic drugs.

About the Authors

Prof. Sangeer Rastogi is Vice Principal, Metro college of Health sciences and Research Greater Noida. He has over 13 years of experience in teaching. He has excellent track record in various academic institutes of high repute and is actively engaged in teaching, administration and service to the profession. His credentials include more than 40 papers in national and international publications of repute, several presentations of scientific papers in national conferences and seminars. He is a life member of professional societies like Indian Pharmacy Graduate Association (IPGA); Association of Pharmaceutical Teacher in India (APTI) & Society of Pharmaceutical Education and Research (SPER). He is also credited as Reviewer of 2 International Research Journals. His research activities focus on the drug discovery as well as synthesis, characterization, computational, molecular modeling and pharmacological studies.

Ms. Nidhi Srivastava Presently working as Assistant Professor, Institute of Pharmacy, Noida Institute of Engineering and Technology, Greater Noida. She is pursuing Ph.D from IFTM University, Moradabad, India. She has more than 4 years of teaching and 2 years research experience from Dabur Research Foundation (DRF) Ghazalabad. She has knowledge of writing Descriptive Protocols and Technology Transfer Documents (TTDs) used to produce the development plans and necessary documents for manufacturing feasibility and process. She has Abilities in writing up research findings and producing reports.

Dr. Sushil Kumar is working as Professor and Director at School of Pharmaceutical Sciences, IFTM University, Moradabad (U.P) India. He has research oriented teaching experience of about 16 years and guided number of M. Pharm. and PhD students. He has published research articles in various national and International journals. Most of his research projects concentrate on drug design, computational study, synthesis, structural-activity elucidation and biological evaluation of synthetic and natural compounds.

Dr. Mohit Gupta is working as an Assistant Professor in School of Pharmaceutical Sciences, IFTM University, Moradabad, U.P., India. He has completed his Doctor of Philosophy from IFTM University, Moradabad, U.P India. He is life member of APTI, SPER, FHER, TPA and APP etc. He is serving as editorial board member for various journals of International repute. He has 10 years of teaching & research experience. His research activities focus on the drug discovery as well as synthesis, characterization, computational, molecular modeling and pharmacological studies. He is involved in teaching and training to post-graduates and doctoral students.
