About the book

It gives us an immense pleasure to introduce this book. This book has been written according to New PCI Syllabus. The topics have been introduced in such an interesting language that even a average minded student will also be able to understand it easily.

The most important feature that makes this book superior from other books is that we have included a large number of activities, a well-managed solved questions for understanding the pattern.

This book contains:

- ❖ Chapter-wise distribution of every unit.
- ❖ Very short answer type question.
- ❖ Short answer type question.
- ❖ Long answer type question .
- ❖ The language of this book is quite simple and lucid which makes it easy to understand.

Topics and concept outlines in each unit are given at the starting of the content and also every topic contains necessary images and diagrams.

Chapters are discussed in elaborative and well defined manner to make the reading of pharmacy more exciting and easily graspable. We have make sure that the content in this book should be quite helpful and useful to you and also you would gain the knowledge that you needed.

We strongly believe that the true judges of a book are teachers as well as students, for whom the book is meant, Though, we have tried up to our best level to complete your expectations. And even after this, if you find any mistake or correction, then we would like to extend our apology.

Suggestions and positive criticism for further improvement of the book will always be welcomed and we shall incorporate it in next edition.
