Notices

Knowledge and best practice in this field are constantly changing. As new research and experience broaden our understanding, changes in research methods, professional practices, or medical treatment may become necessary.

Practitioners and researchers must always rely on their own experience and knowledge in evaluating and using any information, methods, compounds, or experiments described herein. In using such information or methods they should be mindful of their own safety and the safety of others, including parties for whom they have a professional responsibility.

To the fullest extent of the law, neither the Publisher nor the authors, contributors, or editors, assume any liability for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions, or ideas contained in the material herein.

Contents

Contributors	xv
Preface	xxi
CHAPTER 1 Introduction	1
<i>Rajeshwar P. Sinha and Donat-P. Häder</i>	
1.1 Novel substances in pharmacy and medicine	1
1.1.1 Antibiotics against pathogenic infections	1
1.1.2 Novel compounds derived from microorganisms against human diseases	3
1.2 Novel compounds derived from cyanobacteria: role in human welfare	4
1.3 Natural substances for food production	6
1.4 Natural substances for technological applications	7
1.5 Conclusions	8
References	9
CHAPTER 2 Secondary metabolites from bacteria and viruses	19
<i>K.D. Pandey, Arun Kumar Patel, Monika Singh, Vandana, Ajjo Kumari and Jalaluddin</i>	
2.1 Introduction	20
2.1.1 Rhizosphere	20
2.1.2 Plant growth-promoting rhizobacteria	20
2.1.3 Endophytic bacteria	21
2.2 Secondary metabolites synthesis	22
2.2.1 Phytohormones: IAA and others	22
2.2.2 Organic acids, phosphatases, and P-solubilization	25
2.2.3 Biocontrol	26
2.2.4 ACC deaminase(1-aminocyclopropane-1-carboxylate) and ethylene	27
2.2.5 Enzymes	28
2.2.6 Bioactive compounds	28
2.3 Secondary metabolite production by bacteria, cyanobacteria and their lysogen	31
2.4 Conclusions and future prospective	32
Acknowledgments	33
References	33
CHAPTER 3 Bioactive compounds of hops resulting from the discarding of the beer industry in the control of pathogenic bacteria	41
<i>Gilmar Sidnei Erzinger, Pamela Caroline Lopes, Lineu Fernando del Ciampo, Sofia Cieslak Zimath, Daiane Vicente, Fernando Martins de Albuquerque and Rodolfo Coelho Prates</i>	
3.1 Introduction	41

CHAPTER 17 Bioactive compounds and their future therapeutic applications	337
<i>Kriti Shrinet, Ritika K. Singh, Avinash K. Chaurasia, Alok Tripathi and Arvind Kumar</i>	
17.1 Introduction	338
17.2 Types of bioactive compounds	339
17.2.1 Natural phenols	339
17.3 Pharmacological activities of bioactive compounds	343
17.3.1 Antidiabetic activity	343
17.3.2 Antiatherosclerosis activity	344
17.3.3 Diuretic activity	345
17.3.4 Anticancer activity	345
17.4 Some medicinal plants and their constituents	346
17.4.1 <i>Ocimum sanctum</i> (Tulsi)	346
17.4.2 <i>Gymnema sylvestre</i> (Gudmar)	347
17.4.3 <i>Costus pictus</i> (Keu)	348
17.5 Extraction methodology and characterization of bioactive compounds	349
17.5.1 Extraction methodology	349
17.5.2 Identification and characterization	351
17.5.3 Purification of the bioactive molecules	351
17.6 Future perspectives	354
17.7 Conclusions	355
References	355
CHAPTER 18 Marine sponges: source of novel biotechnological substances	363
<i>Donat-P. Häder</i>	
18.1 Introduction	363
18.2 Ecology of marine sponges	366
18.3 Source of pharmaceutical substances	367
18.3.1 Antifouling	371
References	374
CHAPTER 19 Bioreactive substances from coral reefs and gorgonians	381
<i>Donat-P. Häder</i>	
19.1 Introduction	381
19.1.1 Natural substances from coral reefs	383
19.1.2 Gorgonians	385
References	388

Chapter outline

17.1	Introduction	338
17.2	Types of bioactive compounds.....	339
17.2.1	Natural phenols.....	339
17.2.1.1	Phenolic acid.....	339
17.2.1.2	Flavonoids.....	340
17.2.1.3	Tannins.....	342
17.2.1.4	Stilbenes.....	343
17.2.1.5	Lignins.....	343
17.3	Pharmacological activities of bioactive compounds.....	343
17.3.1	Antidiabetic activity.....	343
17.3.2	Antiatherosclerosis activity.....	344
17.3.3	Diuretic activity.....	345
17.3.4	Anticancer activity.....	345
17.4	Some medicinal plants and their constituents.....	346
17.4.1	<i>Ocimum sanctum</i> (Tulsi).....	346
17.4.2	<i>Gymnema sylvestre</i> (Gudmar).....	347
17.4.3	<i>Costus pictus</i> (Kau).....	348
17.5	Extraction methodology and characterization of bioactive compounds.....	349
17.5.1	Extraction methodology.....	349
17.5.2	Identification and characterization.....	351
17.5.3	Purification of the bioactive molecules.....	351
17.5.3.1	UV-visible spectroscopy.....	351
17.5.3.2	Infrared spectroscopy.....	352
17.5.3.3	Fourier transform infrared spectroscopy.....	352
17.5.3.4	Nuclear magnetic resonance spectroscopy.....	352
17.5.3.5	Mass spectrometry for chemical compounds identification.....	353
17.5.3.6	Nonchromatographic techniques.....	353
17.5.3.7	Phytochemical screening assay.....	354
