

ABOUT THE AUTHOR

Dr. Rashmi Srivastava is working as Associate Professor in School of Biotechnology, IFTM University Moradabad, Uttar Pradesh. Dr. Srivastava has made a significant contribution in the field of Bioinformatics in the past fifteen years. She did her M.Sc. in Bioinformatics and Ph.D. in Biotechnology from Integral University, Lucknow, Uttar Pradesh. Besides all this she has also done PG Diploma in Biotechnology from Govt. Polytechnic to help her reach the zenith in this field. To enhance her knowledge, she has travelled in many places across India to attend workshops, trainings and seminars on Bioinformatics and also organized the same at University level. She has been awarded with the title "Women Researcher 2022" and also conferred with an "Excellent Teacher Award" in 2022. Her hunger for research and knowledge has made her to work on Bioinformatics. She has published the book entitled "Bioinformatics in Cancer Immunogenomics", a master work in the field of Cancer emphasizing on causes of Cancer and remedial measures. By means of her writing, she has created a path to "Bioinformatics" for beginners. Her efforts are a boon to beginners as well as
