ACTION TAKEN REPORT
BASED ON
(CURRICULUM FEEDBACK ANALYSIS)
2022-23
SCHOOL OF BIO TECHNOLOGY

Based on the Curriculum Survey conducted for the year 2022-23, sliding trend was observed (in regards to the preceding year's observations) in some of the vital parameters. To address the issues and observations inferred from the Curriculum Feedback Report, following actions were taken / planned by the department.

S.NO.	OBSERVATIONS	CORRECTIVE MEASURES
STUDENTS		
1	Some of the students did not find a good balance between theory and practical sessions.	The schedule and allocation of practical sessions was checked and necessary adjustments (wherever deemed necessary) were done.
2	A considerable number of students shared their discontent with the practicality and relevance of some subjects in getting the (desired) job.	The curriculum gets updated at regular interval to weed out any redundancy and make it practical, relevant in daily life and useful for professional growth. The revision in curriculum was done in BoS
TEACHERS		
3	Syllabus was not seen as sufficient and suitable for the course by some faculty members.	The faculty members are encouraged to give suggestions and the HoDs ensured their active participation.
ALUMNI		
4	Few alumni shared their discontent from the seminars and workshops organized by the department.	The HoD reviewed the faculty / resource persons (internal and external who delivered lectures in 2021-22 and 2022-23) and their content for its acceptance, effectiveness and suitability. Many external domain / subject experts were invited by the department and those with not so good feedback have been planned to discontinue.
5	Few alumni shared their discontent from the guest lectures organized by the department.	The HoD reviewed the faculty / resource persons (internal and external who delivered lectures in 2021-22 and 2022-23) and their content for its acceptance, effectiveness and suitability. Many external domain / subject experts were invited by the

		department and those with not so good feedback have been planned to discontinue.
6	Not all the alumni felt great about the learning environment at the department.	The students have been sensitized about the various facilities available at the central library that can help them in their research work. The HoDs sensitized the students about the incentive policy of the university.
EMPLOYERS		
7	Employers' Survey 2022-23 revealed that students (placed) were found having technical skills below par.	It was inferred that the feedback is more likely to be in regards to the students of journalism. The curriculum is well structured and suitable count of hours is allocated to help students work on their technical abilities.
