ACTION TAKEN REPORT

BASED ON

(CURRICULUM FEEDBACK ANALYSIS)

2021-22

SCHOOL OF PHARMACEUTICAL SCIENCES

Sanjeev Kumar

Registrar
IFTM University
Moradabad

Based on the Curriculum Survey conducted for the year 2021-22, sliding trend was observed (in regards to the preceding year's observations) in some of the vital parameters. To address the issues learnt through Curriculum Feedback Report, following actions were taken by the department.

S.NO.	OBSERVATIONS	CORRECTIVE MEASURES
STUDENTS		
1	Some of the students did not find the balance between theory and practical session right.	After discussion, it was found that the curriculum and course structure require no changes and are appropriate as per the norms.
2	A considerable number of students shared their discontent with the practicality and relevance of some subjects in getting the (desired) job.	The curriculum gets updated at regular interval to weed out any redundancy and make it practical, relevant in daily life and useful for professional growth. The revision in curriculum was done in BoS and necessary changes were made wherever deemed necessary.
3	Not all the students saw the courses helpful in developing their personality.	PSD classes are run for the students however the the programs in Pharmacy focus more on functional excellence and conceptual knowledge.
TEACHERS		
ALUMNI		
EMPLOYERS		
4	Employers' Survey 2021-22 revealed that students (placed) were found having technical skills below par.	Special training sessions are underway for the final year students (2022-23 batches) on the use of laboratory equipment.
5	A considerable number of employers reported that some students could not use the equipment and work on the technology in use (at work place).	They were provided special training sessions on procedures and equipment used in pharmaceutical industry.
